It's your lips, your kiss, your touch
The feeling of your body
Girls it's so amazin'
The scent in your hair
I love the way you smell, it's amazin'
Girl you're so amazin'
But they'll never understand,
It almost drives me crazy baby
I'm gon' be a man
And gonna tell the truth about it

Nobody love me like you do
Nobody love me like you do
Nobody love me like you do
Nobody love me like you do, nobody love me like you
do
Nobody, nobody, nobody love me like you do baby
Nobody, nobody, nobody love me like you do

It's your moan, your sigh, I'm high
When I'm in your body, girl it's so amazin'
You sweat, I feel so real
I just can't describe it, girl that's so amazin'
But they'll never understand
It almost drives me crazy baby
But I'm gon' be a man
And gonna tell the truth about it

Nobody love me like you do
Nobody love me like you do
Nobody love me like you do
Nobody love me like, nobody love me like you do
Nobody, nobody, nobody love me like you do
Nobody, nobody, nobody love me like you do

You can have the money
You can have the cars
You can have the crib
You can have it all
Cause to me, it means nothing, nothing without you
All I need is your loving

Everything else means nothing, nothing, nothing
Cause

Nobody love me like
Nobody...

Nobody love me like you do, yeah
Nobody love me like you do
Nobody love me like you do
Nobody love me like you do
I said nobody love me like you do
I said nobody, nobody, nobody love me like you do
Nobody love me like you do
Nobody love me like you do
Nobody, nobody, love me like you do
I said nobody, nobody, love me like you do
