Right now (right now) drive by the ocean side  
Feels good to be alive, feels good to be!  
Right now (right now) today ain't like no other one,  
This is the morning sun, think I'mma do it right now!

Bridge:

Raise your hands if you ever had your doubts,  
Trying to figure, what's it all about!  
Right now (right now) don't you now me,  
I've been there before,  
Don't let go, babe!

Chorus:

Got so many possibilities,  
Close your eyes so you can see!  
An answer... it's good to be here right now!  
It's good to see there's so many ways that I go,  
I think it's all right if things have gone,  
And the answer... it's good to be here right now!  
It's good to be here right now!

Right now we're infinite, unprecedented,  
We turn water to wine like it's New Testament!  
Yeah! We're elevated, you know what I'm saying,  
We keep the simple so sophisticated!

Bridge:

Raise your hands if you ever had your doubts,  
Trying to figure, what's it all about!  
Right now (right now) don't you now me,  
I've been there before,  
Darling, don't let go, babe!

Chorus:

Got so many possibilities,  
Close your eyes so you can see!  
An answer... it's good to be here right now!  
It's good to see there's so many ways that I go,  
I think it's all right if things have gone,  
And the answer... it's good to be here right now!  
It's good to be here right now!

... if you know me,  
You try to go, I lost my way but I found it once again!  
I'mma keep on some air, keep on some air!

Chorus:

Got so many possibilities,  
Close your eyes so you can see!  
An answer... it's good to be here right now!  
It's good to see there's so many ways that I go,  
I think it's all right if things have gone,  
And the answer... it's good to be here right now!  
It's good to be here right now!
