I see you now in the dead of night
The shadows closing in
You lie and wait for the morning light
You'll just survive till
then
Loneliness only means you harm
So try to raise a smile
Don't
you know that your open arms
Can bridge a thousand miles?
When there's no end to it all
Try to surrender Let yourself
fall and just Try to remember
You're Not The Only One who feels pain
Open your heart
and live again The rule you depend upon
From this day on
You're Not The Only One
Throw back the shutters and unlock the spell
Let sunshine
light your face The growing fears that you know so well
Will
vanish into space
You're Not The Only One who needs faith
Climbing the face
of the unknown To tell you you're not alone
And, above all
else You're Not The Only One
Free Yourself Take a good look around
There's a lot of love
to be found Love will not let you down
