### "Leave The Lights On"

Visit "[Leave The Lights On](#)" on [MotoLyrics.com](https://MotoLyrics.com)

You started over yesterday  
In dirty rain the sky was so grey  
You listen to the engine sing  
And you forget about everything

Let the sun shine  
Like it's never shined  
Across a blue sky  
And watch the time fly

Free all the lonely boys who love no one  
And dream on through the years and leave the light on

You never felt a night so cold  
Your angry eyes were tightly shut closed  
You fell out of love with rock and roll  
You shot a hole in your radio

Let the sun shine  
Like it's never shined  
Across a blue sky  
And watch the time fly

Free all the lonely boys who love no one  
And dream on through the years and leave the light on

Don't you dream on
