So he'd like it to grow
As far as he knows
The situation is cursed
For better or worse
He wants to take a chance
He surely wants to make it
But soon enough he'll understand he's gonna waste it
Everytime that love appears around he'll wonder why

He'd like it to grow
As far as he knows
The situation is cursed
For better or worse
He wants to take a chance
He surely wants to make it
But soon enough he'll understand he's gonna waste it
Everytime that love appears around he'll give it up
