I've been falling asleep and waking up
Wasting my time, I don't know why
Could this lazy boy quit fucking around
Wasting his time, he doesn't know why

Whole night dreaming makes me feel so tired
Whole night dreaming, I'm pretending to wake up

Couldn't close my tired eyes
Someone told them not to
Couldn't sleep, my tired eyes
There was no need to hurry up
No one knows but I'm still falling asleep and waking up
Wasting my time, I don't know why
(I've been waiting for so long for you to wake up)
I hate falling asleep and waking up
Wasting my nights, I don't know why

Oh, I love you so
