You know a friend of mine thought of me bad  
And though I didn't lie I made her mad  
Now, won't you tell me what to think of that

Let's be friends, let's be friends  
Let's be friends, let's be friends  
I don't wanna think so please stop  
Pushing me around, c'mon c'mon don't push me down  
Stop pushing me around, c'mon c'mon

You know I love you girl, nothing to add  
I know you love me to, that's why I'm glad  
But don't you think there's something we've forgot  
Let's be friends, let's be friends  
Let's be friends, let's be friends  
I don't wanna think of how it ends

Let's be friends, let's be friends  
Let's be friends, let's be friends  
I don't wanna think  
He like to talk about art, c'mon c'mon  
And drink some wine in her dad's car, c'mon c'mon  
She paints her bathroom wall green, c'mon c'mon  
She'll save the world in her spare time, c'mon c'mon
