I wanna cry
Just as long you don't tell my why
I run to hide
Ever since you said goodbye

With this feeling now I'm justified
(What is just a feeling now?)
And this feeling now I can't deny
(What is just a feeling now?)

With this feeling now I'm justified
(What is just a feeling now?)
And this feeling now I can't deny
(What is just a feeling now?)

I wanna cry
Just as long you don't tell my why
I run to hide
Ever since you said goodbye

With this feeling now I'm justified
(What is just a feeling now?)
And this feeling now I can't deny
(What is just a feeling now?)
With this feeling now I'm justified

(Come on, come on)
It's only what you're this time
(Come on)
What you wanted to drive
(Come on)

You're the sun that shines
(Come on)
If only we got to see you smile
(Come on)
