Pack your bags before you go
Cuz' I miss them strawberries in wintertime
Lonely boats on the sand
The birds wish to swim and then the fish to fly
But it's not what I wanted to tell you
Not what I wanted to say

There are some easy nights
Long flights
And if the world's gone
It's not your fault
But when you're falling in love
You're all alone

He took a day off work to build a giant paper raft
When everything comes to an end he'll be the one to
laugh
(Oh, there is someone you know
Her heart and mind are all about you)

And she wouldn't notice if she's back hhome
Her heart is made of gold and her water is cold
