"Cadillac Baby"

Visit "[Cadillac Baby](#)" on MotoLyrics.com

Roll up to the lady's house
Take her for a ride
Pull up to the curb
In my sky blue power glide
She saw me through the window
And then began to grin
She could tell by the sight of it
What shape my motor was in

Cause I got a Cadillac baby
You know it's really long and clean
One spin and you will know
It's a Detroit loving machine

Now we drove down the boulevard
To Woodward Avenue
And that's when she asked me
Just what my car could do
I said you can be sure
I will satisfy your soul
I don't need my hands and feet to drive
When I turn on that cruise control

I got a Cadillac baby
You know it really holds the road
And the rear automatic shocks
Will help level any load

Now we drove down the boulevard
To Woodward Avenue
And that's when she asked me
Just what my car could do
I said you can be sure
I will satisfy your soul
I don't need my hands and feet to drive
When I turn on that cruise control

I got a Cadillac baby
You know it really holds the road
And the rear automatic shocks
Will help to level any load

So if your man ain't taking you
To were you wanna go
I'm the only cat that you'll
Ever need to know
Be sure to tell your girlfriend
You never had such a thrill
As you did going twenty miles a hour
Riding in my coup de ville

Cause I got a Cadillac baby
I get good loving to the mile
And with a sweet little girl like you
You know I got to ride in style

I got a Cadillac baby
Riding in my Cadillac
Got a Cadillac little girl
Riding in my Cadillac
Don't you wanna ride
Ride in my Cadillac
Let's ride baby
In my brand new Cadillac
