I wish you was a dresser baby
So I could ramble through your dresser drawers
I wish you was a dresser baby
So I could ramble through your dresser drawers
Pushing in and sliding out ha ha ha ha ha
And playing with your knobs some more

I wish you was a mirror baby
I'd like to see myself in you
I wish you was a mirror baby
I can see myself in you
Cause when I look in the mirror baby
I dream about the things we use to do

I wish you was an ice box baby
I'd sure like to grab a piece of your ice
Well I wish you was an ice box baby
I'd sure like to grab a piece of your ice
When it's hot in the summer time
I know that would cool me off real nice

I wish you was my Cadillac Baby
So I could drive you home
I wish you was my Cadillac baby
So I could drive you home
We could jump off the crowded freeway darling and
Take the back roads all alone
