"Get Over Here Baby"

Visit "[Get Over Here Baby](#)" on MotoLyrics.com

Get over here baby you know I love you so
Get over here baby you know I love you so
Everyday I'm with you I need you more and more

When I hear your voice on the telephone
I just want you to hurry back home
Get over here baby you know I love you so
Everyday I'm with you I need you more and more

You tickle my toes and my inners to
I feel kind of fuzzy cause I love you
Oh get over here baby you know I love you so
Everyday I'm with you I need you more and more

Running into you baby was a stroke of luck
Let's go back to my place so we can dance and prance
Get over here baby you know I love you so
Everyday I'm with you I need you more and more

The skies the limit like the ocean is the sea
You're the one pretty baby that really satisfies me
Get over here baby you know I love you so
Everyday I'm with you I need you more and more

We can make it any time or any place
Come to me now baby I want you to sit on my couch
Get over here baby you know I love you so
Everyday I'm with you I need you more and more

You scratch my back and rub my front
I feel you good I want to kiss you so
Get over here baby you know I love you so
Everyday I'm with you I need you more and more
