Woman now that the shoes on the other foot you see
just what I meant
Cause the man you got now hardly give you one red
cent
He watches you like a hawk and you can't even leave
home
So if your happy with that baby I will leave you alone
That's fair play baby you know that's fair
You thought you had a good thing
But it just ain't there

Now that I've got a Mercedes woman you won't leave
me alone
And the man you got now baby won't let you talk on the
telephone
That's fair play baby baby you know that's fair play
You thought you had a good thing baby
But it just ain't there

One of these days honey you'll wake up and see
What other people say is true about me
They say I was real good to you and that ain't no joke
But the man you got now baby want to keep you down
and broke
That's fair play baby baby you know that's fair play
You thought you had a good thing baby
Oh no no it just ain't there

No baby just ain't fair
