Walk on baby don't let that door hit you from behind
Walk on baby don't let that door hit you from behind
You use to be a sweet young thing
But you done changed your mind

Walk on baby I gotta clean all of your tracks
Walk on baby I gotta clean all of your tracks
Well you don't want my loving
You just want all of my cash

Walk on baby take your picture off the wall
Walk on baby take your picture off the wall
I got your suitcases packed
And just out there standing in the hall

Walk on baby here's a ticket for your train
Walk on baby here's a ticket for your train
I'm gonna set you free now
And you can go bug some other man
