Let me tell you something about myself  
I'm not ashamed to stand up and testify  
I think every man oughta  
Stand up and testify

Friend, inquisitive friend  
I'm asking what's come all over me  
I've changed, I've been changed  
It's so plain for everybody to see

Then something came over me  
It took me by surprise  
Happiness is all around me  
You can even see it in my eyes  
Yeah, yeah, yeah

I just wanna testify  
What your love has done for me  
Let me say I just wanna testify  
What your love has done for me  
Yeah, yeah, yeah

As for me, I'm running now  
Let me say (I'm running now)  
Oh, right now (running away)

Once, I was a hard man  
In which a lonely heart did dwell  
Your love sneak up on me  
And brought life to an empty shell

I've heard so many times before  
That love can be so bad  
I just got to tell you that  
It's the best love I ever had

Let me say I just wanna testify  
What your love has done for me  
Oh, I just wanna testify  
What your love has done for me

Luscious

You sure been delicious to me  
Baby, can't you see  
You sure been delicious to me

Somebody, help me say it  
(Luscious, sure been delicious  
Sure been delicious)  
(Luscious, sure been delicious  
Yeah, yeah, yeah, yeah)

I'm not ashamed to  
Stand up and testify  
And every, every man oughta  
Stand up and testify  
Every woman oughta  
Stand up and testify

Just a little while ago  
My life was so incomplete  
I forgot, forgot, oh, Lord  
I look up at my feet

Let me say  
I just got to testify  
What your love has done for me  
I just got to testify  
What your love has done for me
