Tender hearts are we  
So t. us carefully  
When all I want from u  
Is to say oh I do, oh I do  
What are you trying,  
What are you trying to pull(I was running through the  
cold outdoors)  
What are you trying,  
What are you trying to pull(I was looking 4 the wrong  
way outta here)  
I'm so sick of this silence  
So sick of the things we do  
Bender parts are we,  
We tend 2 own these  
Streets...  
'Cause in my heart I know  
Will be replaced...  
Legions of the same are on their way
