I wonder about you,
Are you my friend?
I came to talk to you again

I'll send my echoes out,
To the streets with the highlights on
'cause I know I won't be coming home
'cause they've taking my dreams away

I run every time
But the beats will never come,
Try to find out
What the difference is made out of

Guess I'll see you around the bend,

Where our paths will cross again

When your ends come falling down
Another time, a different town
'Cause I know
You won't be coming home
'Cause you've lead yourself astray

I run every time
But the beats wille never come,
Try to find out
What the difference is made out of

But they 'll never buy me,
Buy me, buy me.
