Strange people in the street  
Strange people I would like to meet.  
Strange faces, strange places  
Strange things I've never seen before

Upper middle class whores  
In what a world have you been born?  
Uppermiddle class whores  
Where can I buy one in the store?  
Compulsions, dangerous minds are things I'd like to  
find.  
Strange places, a strange day, wouldn't have it any  
other way.

Upper middle class whores  
In what a world have you been born?  
Upper middle class whores  
Where can I buy one in the store?
