If you should meet some lonely soul who on this earth  
can't reach his gold  
And he's travelin' down the road so dark and dim  
Lend the hand say a prayer give a smile that he might  
share  
But for the grace of God it could be you instead of him  
(But for the grace of God it could be you instead of  
him)  
Be friend each stranger in the night help to make his  
burdens light  
Lift up the fallin' ones and be a friend  
Shed a tear share a sight Share his fears don't pass  
him by  
But for the grace of God it could be you instead of him  
(It could be you instead of him)  
Shed a tear share a sight...
