Why, why, why did I treat you bad?  
& why, why, why did I make you mad?  
Well I'm so lonely since you left me  
I'm walkin' in a trance  
Oh please give me a second chance

I know, I know I made you blue  
But I try to make it up to you  
Well, though I hurt you, really hurt you  
Don't find a new romance  
Oh please give me a second chance

A second chance, a second chance with you  
A second chance to prove how much I still love you  
Yes I do

Well I know, I know I was untrue  
But I try to make it up to you  
Well, if you'll let me, let me love you  
We'll find a new romance  
Oh please give me a second chance

(repeat & fade):  
Give me a second chance
