"After The Ball"

I hear people laughing on the corner, by the square
The neon flickers on my wall and I know you're out
there
I've been in here a listening for your footsteps down
the hall
And I'll be waiting for you after the ball

After the ball is over, after the ball
If you cannot stand, I've got a place for you to fall
The blinds are drawn and I have turned the clock-face
to the wall
I'll be waiting for you after the ball

Loving you is sweet addiction, I need only you
Just as long as you come back we'll do what you want to
Give the night your laughter but I'll have you after all
I'll be waiting for you after the ball

After the ball is over, after the ball
If you cannot stand, I've got a place for you to fall
The blinds are drawn and I have turned the clock-face
to the wall
I'll be waiting for you after the ball

After the ball is over, after the ball
If you cannot stand, I've got a place for you to fall
The blinds are drawn and I have turned the clock-face
to the wall
I'll be waiting for you after the ball
