I'll remember you
I'll remember you

Come to me, sweetheart and let me hold you
(Hold you)
One minute more will help me through the loneliness
that's due
Give me another kiss that I can dream on
(Dream on)
Then you'll know that where I go I'll remember you

Hold my hand and tell me that you love me
(Love me)
Look at me the same old way as only you can do
And when you're out of reach my heart will know what
to turn to
When you remember me, remember I'll remember you

I'll remember you
I'll remember you

Honey, how could I forget when I love you
(Love you)
I'll remember you

I'll remember you
I'll remember you
I'll remember you

You don't have to worry
I'll remember you
I'll remember you

Honey, how could I forget when I love you
(Love you)
I'll remember you

I'll remember you
