A burnin' hot sun a cryin' for water black wings circle
the sky
Stumblin' and fallin' somebody's callin' you're lost on
the desert to die
I had to give up and they took me to jail but I hid all the
money I got
Way out on the desert where no one could get it and I
left a mark at the spot
Then I got away and I ran for the desert the devil had
taken control
I needed water but he said I'd make it near the money
is a big waterhole
A burnin' hot sun...
[ac.guitar]
Just up ahead is where I left my mark or it may be to the
left or the right
I've been runnin' all day and they'll catch up tomorrow
I've got to find it tonight
Then up jumped the devil and ran away laughin' he
drank all the waterholes dry

He moved my mark till I'm running in circles and lost on
the desert to die
A burnin' hot sun...
(Lost on the desert to die) lost on the desert to die (lost
on the desert to die)
