1, 2, 3, 4

I heard on the radio rumors of war
People gettin' ready for battle
And there may be just one more

I heard about an earthquake
And the toll it took away
These are the signs of the times we're in today

Matthew 24 is knockin' at the door
And there can't be too much more to come to pass
Matthew 24 is knockin' at the door
And a day or one day more could be the last

The great bear from the Northland
Has risen from his sleep
And the army ranks in red are near
Two hundred million deep

The young and old now prophesy
A coming prince of peace
And last night I dreamed of lightning in the east

Matthew 24 is knockin' at the door
And there can't be too much more to come to pass
Matthew 24 is knockin' at the door
And a day or one day more could be the last
