

Johnny Cash "That's All Over"

Visit "[That's All Over](#)" on MotoLyrics.com

When you left I shed a million teardrops over you
But that's all over, my crying days are through
When you left my heart was cold and every day was
blue
But that's all over, I've found somebody new

Someone that can make me happy, make me wanna
smile
Someone I'm gonna have around me for a long, long
while
Someday we may meet again but I won't fall for you
That's all over, I've found somebody new

Someone that can make me happy, make me wanna
smile
Someone I'm gonna have around me for a long, long
while
Someday we may meet again but I won't fall for you
That's all over, I've found somebody new
Yes, that's all over, I've found somebody new
