Come on, come on, it's going to get crazy in the city
Askin' God is he really coming back to get me or
playing with, yeah
And everything I ever learned as a child
Revelations the whole worlds going wild

Lord come now, yeah
Got my pistol, got my bottle, got my war face
and if the church is the only place I feel safe
But I got faith and I mean real faith

Not Faith Evans I'm talking 'bout the faith
That places you in heaven
When I see the Lord I'ma bow down
And shoot a bird at them devils 'cause it's on now it's
on now

When he comes
No where to run on that day
The world gonna pay
When he comes

Yeah, I can see Jesus in all white
Riding on a stallion like a night
Ready to fight yeah, and I'm gonna to be right beside
him
Got my A K cocked right beside him

Behind him yeah, nothing but thugs on the Lords side
And I was sent to heaven where we reside
Ready to ride ain't no mo nickels and dimes prime time
Captured for my savors blood yeah, the wine

Believe it now time to come to take over
Better watch ya language son God's Jehovah
And when it all over and I am acknowledge
To show that I did it and did in college I followed
My own, my own soul, the Lion of Judaaa

When he comes
No where to run on that day
The world gonna pay

When he comes

Heavenly father I pray right now
For everyone under the sound of my voice
That they come to know you
As Lord and Savior in there lives

Help us Lord to understand that you are soon
To come for your people
And we won't have time to get ready
But must already, be ready

For in the bosom of an eye
You shall appear to receive Your all
Unto Yourself our hearts desire oh Lord
Is to be ready when You come

Help us Lord to forgive one another
Just as you forgave on Calvirage cross
Help us to love one another
Just as you loved and gave your only son

That we shall not perish but shall have everlasting lives
Help us Lord to stand in your righteousness
And to [unverified] every barrier of racial, and ethnic
And social, and economic devision help us to see
