Well I see you've lost your honey bee I know how you
must be feeling now
You feel sad sad but boy it ain't that bad
You cry just a little bit and die just a little bit and then
you'll be all right

[piano]

Well you know it wasn't long ago your honey bee was
queen of my bee tree
But then away she flew and took my honey to you
You cry just a little bit and die just a little bit and then
you'll be all right

[piano]

I pity you I know what you're going through
You watched your queen bee fly your honeycomb went
dry
But if you keep pushin' on you won't care if she's gone
You cry just a little bit and die just a little bit and then
you'll be all right
You cry just a little bit and die just a little bit and then
you'll be all right
