The world is full of strange behavior
Every man has to be his own saviour
I know I can make it on my own if I try
But I'm searching for a great heart to stand me by
Underneath the African sky, a great heart to stand me
by

I'm searching for the spirit of the great heart o hold
and keep me by
I'm searching for the spirit of the great heart under
African skies
Sometimes I feel that you really know me
Sometimes there's so much you can show me

There's a highway of stars across the heavens
There's a whispering song of the wind in the grass
There's the rolling thunder across the Savanna
A hope and a dream at the edge of the sky

And your life is a story like the wind
Your life is a story like the wind

I'm searching for the spirit of the great heart to hold
and stand me by
I'm searching for the spirit of the great heart under
African skies
I'm searching for the spirit of the great heart, I see the
fire in your eyes
I'm searching for the spirit of the great heart that beats
my name inside

Sometimes I feel that you really know me
Sometimes there's so much you can show me
