I carry your books  
I give you looks that say I love you  
I send you flowers  
Spend my hours thinking of you

But I saw you late last night  
You were holding another boy tight

Go ahead, explain  
But remember, if you lie  
The boogie man'll get you  
And your nose is gonna grow

So remember, if you lie  
Everyone will know  
Remember, if you lie  
Your nose is gonna grow  
And everyone will know

You're holding my hand  
Making plans to spend together  
Promising me that our  
Love will be forever

If everything you say is true  
Who's the boy I saw with you

Go ahead, explain  
But remember, if you lie  
The boogie man'll get you  
And your nose is gonna grow

So remember, if you lie  
Everyone will know  
The boogie man'll get you  
Your nose is gonna grow  
The boogie man'll get you...
