(Charles Aznavour/Georges Garvarentz)  
adaptation anglaise Shelby Singleton

Hold back the sun, let this night with you linger on  
Hold back the sun, hold back the dawn, tomorrow you'll  
be gone  
Under the moon this moon of love, the night we share  
is so rare  
But in the light, the light of day, the magic might  
disappear

Retiens la nuit, avec toi, elle paraît si belle  
Retiens la nuit, mon amour, qu'elle devienne  
Éternelle  
Pour le bonheur de nos deux coeurs, arrête le temps  
et les heures  
Je t'en supplie À l'infini, retiens la nuit

Hold back the sun, let this night with you linger on  
Hold back the sun, hold back the dawn, tomorrow you'll  
be gone  
Under the moon this moon of love, the night we share  
is so rare  
But in the light, the light of day, you won't be there.
