If I should write a book for you  
That brought me fame and fortune too  
That book would be like my heart and me  
Dedicated to you

And if I should paint a picture too  
That showed the loveliness of you  
My art would be like my heart and me  
Dedicated to you

To you  
Because your love is the beacon that lights up my way  
To you  
Because with you I know a lifetime could be just one  
heavenly day

If I should find a twinkling star  
One half as wondrous as you are  
That star would be like my heart and me  
Dedicated to you

To you  
Because your love is the beacon that lights up my way  
To you  
Because with you I know a lifetime could be just one  
heavenly day

If I should find a twinkling star  
One half as wondrous as you are  
That star would be like my heart and me  
Dedicated to you
