I like that devilish love light in my Darlin's eyes
I like that devilish smile that made me wise
When I put my arms around her, she seemed just a
little bit shy
But still I had that devilish love light in her eyes

-Solo-

When I saw that devilish love light in my Darlin's eyes
There was a helpful shinin' in the sky
I took her in my arms and told her, there'd be no
goodbye
'Cause I'd liked that devilish love light in her eyes

Since I picked her from Muskogee to be my lovely wife
I never was so happy in my life
We'll love, we'll hug, we'll kiss and love and let the
years go by
While I want that devilish love light in her eyes

-Solo-

Oh the springtime is a-coming and she's in my heart to
stay
I am so happy that she came my way
I'll take her in my arms and tell her, there'll be no
goodbye
'Cause I like that devilish love light in her eyes

'Cause I like that devilish love light in her eyes
