I'm living on the other side of the track it's true  
But like it or not I'm just as good as you  
If I see you coming with your head held so high  
Don't you worry 'bout me speaking I'll pass you right on  
by

This world is full of money but I haven't got a dime  
Had a million heartaches, but I'm happy all the time  
I can be like a tiger or as meek as a lamb  
If you wanna get along with me you'll take me like I am

You can talk about your fancy friends and your  
millionaires  
I may not have their money but I don't have their cares  
You can live in a mansion set up on a golden throne  
But all these things you have in life are gonna vanish  
when I'm gone

This world is full of money but I haven't got a dime  
Had a million heartaches, but I'm happy all the time

I can be like a tiger or as meek as a lamb  
If you wanna get along with me you'll take me like I am

This world is full of money but I haven't got a dime  
Had a million heartaches, but I'm happy all the time  
I can be like a tiger or as meek as a lamb  
If you wanna get along with me you'll take me like I am
