Don't don't close your heart to how you feel  
Dream and don't be afraid the dream's not real  
Close your eyes pretend it's just the two of us again  
Make believe this moment's here to stay

Touch touch me the way you used to do  
I know tonight could be all I'll have with you  
From now on you'll be with someone else instead of me  
So tonight let's build this memory for the last time

Hold me now don't cry don't say a word just  
Hold me now and I will know though we're apart  
We'll always be together forever in love  
What do you say when words are not enough

Time time will be kind once we're apart and

Your tears tears will have no place in your heart I wish  
I I could say how much I'll miss you, when you're gone  
All my love for you will go on and on and

Hold me now don't cry don't say a word just  
Hold me now and try to understand  
That I hope at last you've found what you've been  
searching for  
And though I won't be there anymore I will always love  
you  
(Hold me now don't cry)

Don't say a word just hold me now and I will know  
though  
We're apart we'll always be together forever in love  
What do you say when words are not enough  
What can I say now my words are not enough
