Never more to hurt me deep, bye bye Barbara  
Never more to make me weep, bye bye Barbara  
I have gone in the search of a much truer love than  
your own

I'll find me one who understands, bye bye Barbara  
Holds my heart in tender hands, bye bye Barbara  
I have gone in the search of a much truer love than I've  
known

Just read my note on your door  
Just goodbye - nothing more  
It's better to leave you this way  
You couldn't change, I couldn't stay

Never more to hurt me deep, bye bye Barbara  
Never more to make me weep, bye bye Barbara  
Since you are what you are  
You'll not very long be alone  
I have gone in the search of a much truer love than  
your own
