I could feel
It coming from a mile away
When I opened up the door
I saw everything that I've been waiting for, hey, hey

Close your eyes
I don't care what other people say
Underneath the stars
Now Jupiter and Mars don't seem so far away

I want you to know
You take my breath away
And it's been that way right from the start

I didn't know how to tell you
That I want to love you with every beat of my heart
(With every beat of my heart)
With every beat of my heart

Take my hand
Don't be afraid, don't go, I want you to stay
Just relax your mind
I promise that tomorrow will be just like today

I want you to know
You take my breath away
And it's been that way right from the start

I didn't know how to tell you
That I want to love you with every beat of my heart
(With every beat of my heart)
With every beat of my heart

I said, "I want you to know
You take my breath away
And it's been that way right from the start"

I didn't know how to tell you
That I want to love you with every beat of my heart
With every beat of my heart
(With every beat of my heart)

With every beat of my heart
With every beat of my heart
