You are like the sun that starts my day
Everything is easier to see when you are around
Hearing the sound of your voice, I just have to stop and
smile
Even if this hurried world should turn it's back on me

Who needs the world when you here with me
No one in the world, no one in my life could take your
place
Everyday there's someone in the world
Making even hard times easy like no one in the world

In the night comes in the heart of love the dark
Listening to the sweet eternal music of your heart
I wish we had more than one life
I'd spend them all with you

Everyday I'd find another reason to be the last
I have the chance to be here with you
No one in the world, no one in my life could take your
place
Everyday there's someone in the world
Making even hard times easy like no one in the world

So stay with me
Everything the world can give
We're gonna find together

Like no one in the world can do
Just as long as I have you
Nothing can ever stop me

Stay right here
Everything that's fine and that's clear
Started the day I met you

Like no one in the world you are
Like a very lovely star
[Incomprehensible]

So stay with me
Everything the world can give

We're gonna find together

Like no one in the world can do
Just as long as I have you
Nothing can ever stop me
