Someone  
Johnny Mathis  
Written by William J. Tennyson, Jr.

Peaked at # 35 in 1959

Someone really loves you guess who?  
Someone really needs you guess why?  
Someone wants to kiss you and hold you tight  
Someone wants to love you each and every night.

Someone wants to say "Hello"  
I know he'll never let you go  
When he looks into your eyes I know that you will  
realize  
And guess just who that someone must be  
I know you'll know that someone i-i-is me

Someone wants to kiss you and hold you tight  
Someone wants to love you each and every night.

Someone wants to say "He-e-e-ello"  
I know he'll never let you go  
When he looks into your eyes  
When he looks into your eyes I know that you will  
realize  
And guess just who that someone must be  
I know you'll know that someone  
I know you'll know that someone i-i-is me
