SOMEONE (Key of A/Bb)

Someone really loves you; guess who.

Someone really needs you; guess why.

Someone wants to kiss you and hold you tight;

Someone wants to love you each and ev'ry night.

Someone wants to say hello;

I know he'll never let you know.

When he looks into your eyes,

I know that you will realize

And know just who that someone must be;

I know you'll know that someone is me.

(Musical interlude and pick up at third line.)

Someone wants to kiss you and hold you tight;

Someone wants to love you each and ev'ry night.

Someone wants to say, "Hello!"

I know he'll never let you know.

When he looks into your eyes,

I know that you will realize

And know just who that someone must be;

I know you'll know that someone is me.
