She's already in fashion at the courthouse each day,  
don't need Armani suits to make the cameras her  
slave.

Oh Winona give me some company.

She's 24-7 the breaking news everyday.

So there's unemployment but will they take her away?

Oh Winona give me some company.

Oh Winona put this gun against my heart and though I  
tell her

just not everything is art and oh Winona will you keep  
me company

Next stop prison for you baby will I visit? Probably  
maybe.

I'll tell the judge the jury that you've not been the  
same since Johnny left you he must be fucking insane.

Oh Winona give me some company.

Oh Winona put this gun against my heart and though I  
tell her

just not everything is art and oh Winona will you keep  
me company

Next stop prison for you baby will I visit? Probably  
maybe
