"My Part Of Forever"

Visit "[My Part Of Forever](#)" on MotoLyrics.com

I can't take your hurt and wish it away or condemn a
love you knew yesterday

I can't be the past you want to relive my part of forever
is all I can give

I can't be a part of some other time

Or free the memories that's chained to your heart

I can't take his dreams and make them live my part of
forever is all I can give

All I can give is the love you see it's all that I have that
belongs to me

I was not the cause of yesterday's rain

I never said the words that brought on the pain

The life you had with him is not mine to live my part of
forever is all I can give

My part of forever is all I can give
