Last night's lovers
Escaped by morning
And a turning car's headlights
Makes shapes across the scene
And a clattering truck on the hill accelerates
Moves the windowsill and
Shakes the whole building

Tea and a cigarette
Coughing and yawning
Open the door to a freezing cold morning
A long day ignores

Not bitter but bored
Not bitter but bored
I just don't need the attention any more

Not bitter but bored
Not bitter but bored
I just don't need the attention any more

Last years heroes
Hang in the lay-bys
Turning in their medals and
Selling off their stars

One more blast of glory and
One more curtain call
A single sign from heaven

That will prophesise it all

Time is traded in the alley of swords
For the secret combination of the minor chords
A long day ignores

Not bitter but bored
Not bitter but bored
I just don't need the attention any more
I don't need it any more

Not bitter but bored

Not bitter but bored
And the reason for this I'm not exactly sure
I'm not exactly sure

(GUITAR SOLO)

Not bitter - Bored
Not bitter but bored
I don't want affectation any more
Not bitter but bored
Not bitter but bored
And the reason for this I'm not exactly sure
I'm not exactly sure
Not bitter but bored
Not bitter but bored
Not bitter - Bored
