I'm so glad to have you back within these arms of mine  
I can finally close my eyes and get some rest  
Never once did I think to find me someone new  
Cause there's nothing better once you've had the best  
You're the very thing they sing about in love songs  
And one mistake don't mean you failed the test  
And as you lay beside me softly sleepin' this I know  
There's nothing better once you've had the best  
Within your arms I have the best and I think the world  
should know  
I don't care what you've said and done I always love  
you so  
You've got more love in your little fingers than all the  
rest  
And there's nothing better once you've had the best
