Lovin' you sure is great
I follow every step you take
Watchin' every move you make
Oh baby.

Ah, don't you know honey child
You really got a country style
I love it every time you smile
Oh baby.

Oh, oh, oh, I get this feeling when I'm close to you
Oh, oh, oh, I can't take anything better
You and me alone together
I love loving you baby.

You gotta be one of the kind
Everything you do is so fine
I think it's all a dream sometime
Oh baby.

Oh, oh, oh, I get this feeling when I'm close to you
Oh, oh, oh, I can't take anything better
You and me alone together
I love loving you baby.

I love loving you baby...
