(Johnny Paycheck)

Let's walk hand in hand, face life together each day
And if darkness surrounds us love will show us the way
If trouble should find us we'll take our stand
Sorrow's glitter can never bind us if we walk hand in
hand.

In you I found the dream I've looked for for so long
And with your arms around me nothing ever goes
wrong
Your love is the answer to my every dream
And with you I know love is everything that it seems.

Let's walk hand in hand, face life together each day
And if darkness surrounds us love will show us the way
If trouble should find us we'll take our stand
Sorrow's glitter can never bind us if we walk hand in
hand...
