(Johnny Paycheck)

Loving an angel every day  
Makes a man feel special in a special sorta way  
You'll tell the world about her till there's nothing left to  
say  
When you're loving an angel every day.

When times are good most any woman can make it  
It's the hard times when love either stands or falls  
But if you have a woman whose whole world is loving  
you  
You got yourself an angel who see you through it all.

And loving an angel every day  
Makes a man feel special in a special sorta way  
You'll tell the world about her till there's nothing left to  
say  
When you're loving an angel every day.

Love and devotion makes a woman  
And a good woman's love makes a man  
If you haven't found the one that you're looking for  
When you do I'm sure that you will understand.

Loving an angel every day  
Makes a man feel special in a special sorta way  
You'll tell the world about her till there's nothing left to  
say  
When you're loving an angel every day.

Makes a man feel special in a special sorta way  
You'll tell the world about her till there's nothing left to  
say  
When you're loving an angel I got loving my angel  
Yes, you're loving an angel every day...
