(Billy Sherrill - Buddy Killen)

Here we are me and you nothing left to hold on to  
And if we make it through the night I'll wonder how  
The more I keep trying seems the more I leave you  
crying  
And it's a shame that only love can save us now.

Only love can save us now  
Only love can see us through pick us up and show us  
out  
To laugh at stormy weather as we go through life  
together  
Only love, only love can save us now.

Only love can save us now  
Only love can see us through pick us up and show us  
out  
We both want to make it but Lord we don't know how  
Only love, only love can save us now...
