(Jerry Foster - Bill Rice)

Her name is like a prayer when I'm in need
She gives me love that satisfies and always stands by
me
She's the guiding light that brings me home
She smooths out the road of life that I travel on.

And her sweet love is everything to me can't you see
She brings daylight to the darkness of my world
Without her love to guide me there's no tellin' what I'd
be
Her precious love is everything to me.

She's my woman she lets me know her love won't end
She's everything I'll ever need she's my lover she's my
friends
It takes her love to make my love complete
She's the shrine of worship she's everything to me.

Her sweet love is everything to me can't you see
She brings daylight to the darkness of my world
Without her love to guide me there's no tellin' what I'd
be
Her precious love is everything to me.

Yes, her sweet love is everything to me can't you see
She brings daylight to the darkness of my world
Without her love to guide me there's no tellin' what I'd
be
Her precious love is everything to me...
