He's just a victim of Society
He can't be like they want him to be
Went away to raise a family
He's just a Victim of Society

Cut his hair and he shaved his face
Packed his bags and he left the race
Went away and he hid his face
All his friends think it's such a disgrace.

He's just a victim of Society
He can't be like they want him to be
Went away to raise a family
He's just a Victim of Society

Used to be so wild and free
Never really bothered anybody
Fought the battle
But he lost the war
Now he's like an eagle who soars

LEAD

He's just a victim of Society
He can't be like they want him to be
Went away to raise a family
He's just a Victim of Society

The peaceful die and the cruel go free
What's the answer seem to be
He looked at things the way we'd love to see
After all he had a family

He's just a victim of Society
Raped and Crucified so pointlessly
Just another living soul set free
He's just a Victim of Society
