"By Any Means"

Visit "[By Any Means](#)" on MotoLyrics.com

Do you wonder why godd things seem to pass you by
Rolling anyhow even though you want to stop

What you gonna do? Got to make it through
Ask the fortune wheel can you make a deal
What you gonna do? gotta make it through
Got to play the hand that's been given to you

You can find a way if you keep on
Living for our dreams, by any means
If you do believe, don't just stand still
Live your life, by any means necessary

That monkey just won't quit
Biting pieces, you can't fight it
Throw hands in the air
Wonder how you got down there

What you gonna do?...
Like a tree (like a tree)
Standing still (by the water)
Do believe and you will
Find your way, going strong
Row your boat down the stream, right along

This old world keeps you turning
In a circle, round and round, it's got you yearning
For your dream, what that means tgesse words to live by
Any means necessary

By any means necessary
Any means necessary
